

 **ALFAGOMMA®**

alfabiotech EVOLUTION

THE FUTURE IS *FLEXIBLE*

Our Alfagomma spiral constructed hydraulic hose range has just gotten even better. Offering all of the same benefits of existing Alfabiotech hoses, including standard Minetuff cover for abrasion and ozone resistance, full MSHA approved fire ratings, and full compatibility with biodegradable hydraulic oils, the new Alfabiotech Evolution hoses offer extreme flexibility up to 60% improved vs. SAE 100R standards. Alfabiotech Evolution hoses are specially designed for long service life in demanding applications where high pulse and pressure considerations and flexible routing considerations are required. Alfabiotech Evolution hoses are also available with an optional Supertuff cover for severe abrasion conditions. With compact and flexible construction, Alfabiotech Evolution hoses prove that the future is flexible.
