

## American Biltrite A Century of American Craftmanship

Originally founded in 1908, the American Biltrite name and iconic logo are synonymous with reliable, high-quality rubber product manufacturing and innovation.

American Biltrite was an early pioneer of rubber flooring, developing various cutting edge rubber curing techniques. With their 400,000 square foot manufacturing facility, in-house R&D center and environmental testing capabilities, they continue to push the boundaries of rubber and vinyl technology.

The American Biltrite Factory in Sherbrooke, Quebec

## THE XX KURIYAMA DISTRIBUTION NETWORK

The Kuriyama Distribution Network services the United States through five primary distribution centers, totaling a footprint of 690,000 square feet. Long focused improving the complete customer experience, Kuriyama recently designed and built a state of the art 329,000 square foot Central Distribution Center in Huntley, IL, as well as a new 120,000 square foot Eastern Distribution Center in Carlisle, PA.

The partnership strategically combines American Biltrite's century-long manufacturing expertise with Kuriyama's extensive sales, customer service, warehousing and distribution network.

Because we continually examine ways to improve our products, we reserve the right to alter specifications or discontinue products without prior notice.
