

QUICK CONNECT COUPLINGS

The Alfagomma UQD & UQDB quick-connect coupling series is an essential component for liquid cooling systems in data centers. With a focus on secure and easy connections, leak-proof design, high flow rates, and resistance to mechanical stresses, it is tailored to meet the rigorous demands of data centre liquid cooling.

Features: Flat face design, Stainless steel, EPDM seal material, 100% helium leak tested, Color coding available, Sizes: 1/4” to 5/8”

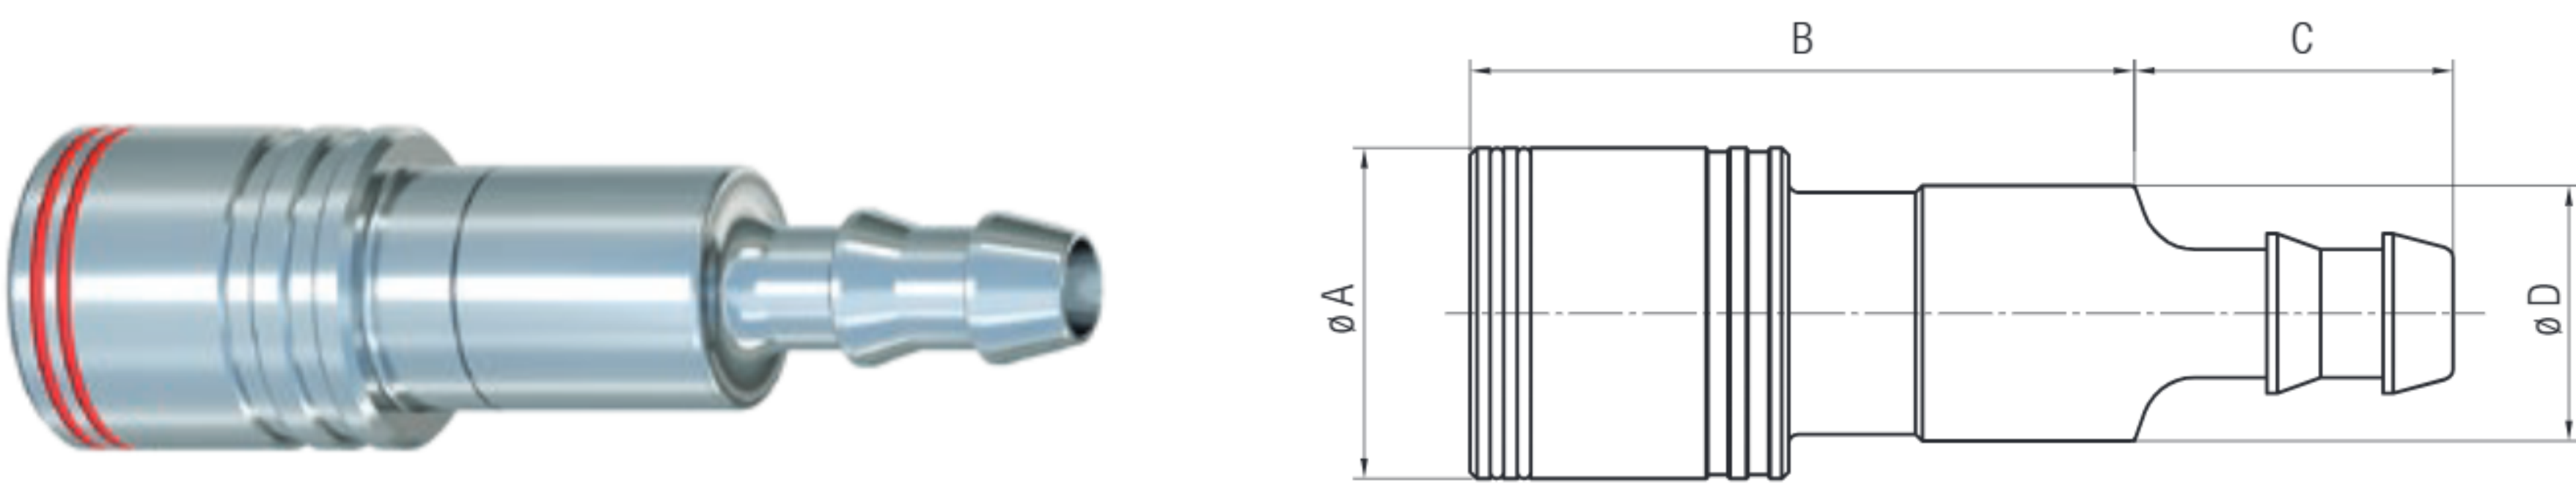

UNIVERSAL QUICK DISCONNECT

Male ORB ISO 11926-3
